

January 14, 1976

acted, and this in my opinion is Senator Warner's attempt to set policy at this time on holding all of these where they are until such policy is set.

PRESIDENT: Chair recognizes Senator Hasebroock.

SENATOR HASEBROOCK: Mr. President, members of the Legislature, I have no objection to holding the bill until such time they set policy.

PRESIDENT: No motion of that kind has been made, Senator. But, Senator Keyes.

SENATOR KEYES: I just want to say one thing. I'm not going to vote to kill this. I certainly agree that we should set it for a certain date when all of the committees are coming in and asking for how much money that they want. I'll tell you last year I said that we should have a 10% cut and maybe that should have been 5% but at the end of this year, near the end of it I'm going to drop something on this Legislature that you won't know, and I'll tell you that we will either support and live within our means or we will have it on the Constitution that you will live within your means. So I'm telling you right now, lets either get this thing in line and lets have the Governor of this State say where he wants to be, because 2½ and 15 and if we can't live within that we had just as well shut this state down. Well we had just as well get the notion going. So I would like to see us hold this right now, so instead of killing the bill, I make a move we bracket on Select File, is that where it is now? Lets get rid of the kill motion and then we will have the right one.

PRESIDENT: Thank you. Senator Clark.

SENATOR CLARK: Mr. President, members of the body, I don't think that it would be fair to blame it on the Governor, on this bill, I'm sure that the Governor didn't put the bill in. Perhaps he would veto it if it were over there, I don't know that. But, I do think that the thing to do would be to kill the bill and set a precedent right now. Because with 124 other commissions coming in here, it could be a real, real donnybrook before it is over. I would certainly support the kill motion on this particular bill.

PRESIDENT: Senator Hasebroock.

SENATOR HASEBROOCK: Mr. President, members of the Legislature, I think that in-as-much as we are going to make a study of this bill, I would favor that this bill be held over or put some where until they make a study and come up with some uniformity. I don't think that we ought to kill the bill right now. I think that it has some merit. I would move that the bill be bracketed.

PRESIDENT: Do you want to request unanimous consent first?
